The PPA lists for the 4 Carelon Medical Benefits Management (formerly American Imaging Management) programs have been combined into one list to eliminate the need to search on various lists.

A column has been added to indicate who must be contacted to obtain with the following abbreviations:

Oncology= Oncology

Sleep= Sleep Study

DIM=Diagnostic Imaging

Cardiology=Cardiology

MSK=Musculoskeletal

Rehab=Rehabilitation

SURG=Surgical

By clicking on the link, you will be sent to the corresponding program page for more information regarding the specific authorization process.

If the member's group is not enrolled in the Carelon program indicated, PPA is not required for that procedure/drug in the specified place of service through Carelon. Please refer to the <u>Blue Cross PPA list</u> to ensure PPA is not required as well.

If you have questions regarding this list, please contact your provider relations representative.

Notice Date: The listed date is when the notice of the existing code was added.

Effective Date: The listed date is when the code will require prior authorization for correct claims processing. If there is no date in this field, the requirement is in effect.

Ineffective Date: The listed date is when the code became invalid ore removed from PPA. The code can be billed for up to 18 months past the date for correct claims processing if prior authorization was requested
